NEW ADVERTISEMENTS

A HUNDRED IMITATIONS OF COD-LIVER O L are being sold everywhere. Thousands of suffering persons are defrauded by this means, and cruelly wronged, and, as a consequence, an invaluable remedy falls into disrepute, by this shameful imp sitions. To guard against the foregoing fraud the most effective means consist in buying the article from reliable dealers reputed beyond suspicion, and verify the article by a close inspection of the wrappers around the bottles, and also observe the name of the firm blown in the glass, without which none is genuine. Lanman and Kemp's Pure White and Black Cod Liver Oil, enjoys an undisputed reputation for its purity throughout the Western Hemisphere, Europe and Australia. Only livers extracted from fresh fish, are used in its preparation, and it can be kept sweet for any length of time in any climate from the Pole to the Equator. Its unfailing efficacy is traceable to its purity, never having been known to fail even in the most acute cases of disease of the lungs, bronchitis, pneumonia, incipient consumption, congestion and consumption of the liver and all lung and throat affections, complicated by scrotula. To effect a cure in the shortest possible time, use one spoonfull of the oil mixed with two of the Pectoral of Anacahuita.

Zulueta, mayor of Havanna, at the head of a deputation of merchants waited on Governor Concha and thanked him for the new tax of 2½ per cent. on the planters, which will produce 10 million dollars yearly, to wipe out the paper-money emission of 60 millions. The value of real property in Cuba is estimated at 1600 million dollars.

An enquiry is on foot in France about the great mortality among infants, and it appears that of every hundred put out to nurse 83 die.

The treaty of commerce between the U. States and Peru has at last been ratified, after an interval of 4 years, having been concluded by Gen. Howe in 1870.

Ferdinand Lesseps and the French Geographical society are at present occupied in a bigger work even than the Suez Canal, namely to open a canal from the Mediterranean near Constantina, in Algiers, and inundate the Desert of Saraha, converting it into a sea, as before the time of Pliny. The chain of salt lakes at Briska, which dry up annually, extends to within 6 miles of the Mediterranean, and is 90 feet lower than that sea.

THE TRANSANDINE RAILWAY.

Mr. Clark, who arrived last week from Chile, has published an important pamphlet on the proposed railway, pointing out to his countrymen the special advantages that would result to Chile from his enterprise.

The import and export trade of 5 Argentine provinces would pass through Valparaiso, giving to Chile an accession of 300,000 souls as far as trade is concerned. Freight of merchandize from England or France to our Andine Provinces would be much lower by Valparaiso and Clark's railway, than by Rosario and the Central Argentine, viz—

	By Valparaiso. Per ton.	By Rosario. Per ton.
To Mendoza	17$60	34$15
San Luis	24 95	27 05
San Juan	19 20	38 74
Rioja	30 45	35 23
Catamarca	34 50	35 74

The export trade from these provinces to Chile would consist largely of live cattle, which reached last year 83,751 head, and would increase with a cheaper price of meat. For example fat oxen for the market, at present worth $30 in Mendoza come to cost $70 in the Chilian market and $90 delivered in Peru; whereas the Transandine Railway will enable them to be sold in Chile at $40, and Peru $55.

The two objections most frequently alleged to the Transandine railway are:—

1st. The natural obstacles are too great to be surmounted.

2nd. The traffic over the Andes is too small to pay even working-expenses.

Mr. Clark quotes two existing railways which present even greater difficulties than the Uspallata pass. The line from Vera Cruz to Mexico has a continuous ascent of 1 in 25 for a stretch of 47 miles. The Oroya line over the Peruvian Andes has curves of 220 feet with inclines of 1 in 20. The greatest incline on Clark's line will not exceed 1 in 30. The section over the Andes is only 45 miles, of which 25 are at an elevation exceeding 9,000 feet over sea-level. The highest point of the line, 11,500 feet. The length from Valparaiso to B. Ayres is 825 miles, including 80 miles of existing railway in Chile.

As regards the probable traffic it is to be remembered that this increases every year with the facilities offered by the railway. The Central Pacific (connecting California with the Atlantic seaboard) was opened in May 1869, and the traffic returns shew:—

1870	$7,995,117
1873	13,932,969

Carrying a million tons cargo yearly, and leaving the following splendid result to the Co.

Net earnings	$7,290,020
Interest on debentures	3,157,370
Clear profit	4,131,650

No wonder that two other Pacific railways are now in construction across the continent of North America!

Regarding a line over the Andes, when this question was discussed before the Royal Geographical Society of London, in Dec. 1872, the eminent engineer, Mr. William Lloyd, so well known in Chile, said:—

"I have no doubt as to making a railway over the Uspallata Pass. The Planchon is not so high, but the advantage is insignificant in this age of tunnels."

The pamphlet before us contains a manifesto dated July 20th 1874 by the merchants of Valparaiso, in favor of Clark's project, and we find the old and respectable names of Duguid, Huth, Gruning, Batour, Williamson, Bennett, Dickson, Brownell, Houston, Steel, Watson, Gibbs, Jackson, Scott, Laidlaw, Heywood, Duncan Fox and numerous others, insisting on the benefits of this enterprise.

At the end are three maps, shewing the Andine sections, proposed Uspallata tunnel, and birds-eye view from Valparaiso to B. Ayres.

FREE PASSAGES.

Department of Interior,
Sept. 17th 1874.

WHEREAS some of the steamboat companies to whom we have granted Packet privileges have refused the free passages given to certain individuals by the Government, alleging that their obligation is limited to the class of immigrants laid down by the Law of August 12th 1872:—

And as the Government is entitled to four free passages, going and coming, namely two of first class and two of third class, it is necessary to make this law effective for the good of the country, as suggested by the Board of Immigration.

The President of the Republic hereby decrees:—

Art. 1. The passages in question may be taken as one of first class equivalent to two of third class, and vice-versa; and in like manner in halves and thirds according to the tariff of fares of each Company, in the case of families, children, or single persons.

Art. 2. The Board of Immigration is authorized to emit either directly or through its agents free passages as above by each steamer, provided they have not been already disposed of by the Foreign office of B. Ayres or our Diplomatic Agents abroad.

Art. 3. Whenever the Foreign office uses any such passes it shall at once send notice accordingly to the Board of Immigration; and in the case of Diplomatic Agents abroad disposing of same they must notify the Immigration Agents in the country where they reside. For this reason a list of such Immigration Agents shall be furnished by the Board to the Diplomatic Agents abroad.

Art. 4. The Board of Immigration shall keep a register of the manner in which these passes are used, and supply a list of same each year in its Report.

Art. 5. No steamer shall be allowed Packet privileges after this date unless the Company previously accept the above obligations. Any steamers now admitted as Packets and refusing these passes shall cease to hold such privileges after 60 days from date.

Art. 6. Any refusal hereafter to recognize such passes, by steamers trading as Packets, shall be punished by fining the Company the amount of passage-money, besides damages and expenses, and if the Government see fit it may also cancel the privilege held by such Packet.

Art. 7. The decree of Aug. 12th 1872 is hereby revoked.

Art. 8. Let the above be published and registered.

MONTEVIDEO.

[Sit mihi fas audita loqui.—VIR]

Sept. 16th, 1874.

I write, Messrs. Editors, under feelings of a very different nature to those of last time—the desire for useful information I mentioned in my last has indeed taken a most unlooked for turn. 'Latet anguis in herba,' some snake in the grass, evidently under the impression that the people here needed elementary information, has composed a Montevidean Alphabet in the old nursery rhyme style, in which each letter stands for the name of some well known person here. If the thing had been cleverly or wittily written, nobody's susceptibilities would have been hurt; but instead of that, it consists of a lot of low, personal, abusive doggerel, in which not even ladies' names are exempted; the rhymes are most lame, and the verse very blank indeed. Efforts are being made to discover the talented author. If he be found, "angels and ministers of *darkness* defend him!" for nobody else will; and he will find this town to bear a very warm resemblance to the destination he is undoubtedly ultimately going to.

But let us turn to some pleasanter subject. Entertainments, instead of getting small by degrees and less entertaining, are getting more by degrees and most entertaining. Last Wednesday the Siberian Minstrels gave a performance. There was much curiosity as to what sort of niggers they were that came from the region of 'Greenland's icy mountains' instead of 'Afric's coral strand,' and the attendance was enormous, so much so that the reserved seats were as full as the pit.

The gentlemen in the back seats couldn't see a bit, and so, 'pour passer le temps,' they amused themselves by blocking each other's hats! The initials of the gentlemen forming the Minstrels were preserved in the programme, but with fantastic names attached. They gave a first rate performance, Mr. Bones and Marcus Squash, Esq., especially distinguishing themselves. "De question ob questions, in fac', de momentous question ob de age is, 'Air yon a farmer's son?' dat's what's de matter!" said Marcus Squash, Esq., in his stump speech, as with graceful emphasis he swung his leg over the table and brought down his gingham umbrella with a whack to enforce his argument; and he so frequently enforced his arguments with the aforesaid umbrella that he put it completely 'hors de combat' and smashed it into several small pieces. At the conclusion, Pompey, with his tambourine, and Mr. Bones, with a bucket, stood at the door to collect, and kept up a running fire of chaff all the time. Pompey evidently had read my last letter as regards the 'dumps,' for he expressed much dissatisfaction at the quantity he received, and requested the people who gave them to change them for dollars. He got one good subscription, however, for as I went out I heard him say that he had just received a $1000 note from Stand-by O'Gorman, Esq.; it so, 'corresponding' must be a much more profitable business than any one else is doing here.

Thackeray in his Book of Snobs has overlooked the genus 'Ship Captain.' I could write a whole Odyssey on this subject, but you would probably 'protest' much if I did, so I will only give one or two examples; at the investigation into the loss of the Liffey held the other day, one of the Captains there received the usual printed letter requesting him to attend, which finished up with "Your obedient servant in the usual way; this piece of politeness quite overwhelmed our Captain: "Look here," said he to his consignee, shipbroker, mate, shipchandler and everybody he could lay hold of; "see this, '*your* obedient servant,' that is '*my* obedient servant!' just fancy that from H. M. Ship of War." One other example—Short, stout and sturdy; bull-necked, bright eyed and hot tempered, bursts into his ship broker's office as if he were monarch of all he surveyed, rushes regardless of what may be going on into his own business, and if requested to wait a bit, states that he is accustomed to deal with 'merchants,' not shipbrokers, and that his business ought to be attended to instanter; a flare up ensues, and he then tears up to his consignee's office to complain, and in the most delicate manner in the world, (like Mr. Chucks the boatswain) informs him that he doesn't half like the way things are going on—that he doesn't get proper attention—that, in fact, the people here are a set of procrastinating liars and thieves banded together to rob the poor Captain, and that he never was in such an infernal hole as Montevideo before! at last having blown off his steam and seeing he did no good by it he clears out. The fact is, they are, as a rule, a set of unmitigated grumblers who are treated much better than they deserve, for doth not Hamlet say—

"Use every man after his desert and who would 'scape a whipping?"

But I perceive, Mr. Editor, that it is getting near the witching hour of night, when churchyards yawn, &c.—the hour when, as Mr. Ingoldsby says, "it is time for all elderly devils to be in bed", and being an elderly devil myself and not wishing to get a curtain lecture, believe me,

Ever of thee,

Taffy.

EDITOR'S TABLE.

The first news in town yesterday was the arrival of the Biela, with telegrams from London to the 6th inst. The only thing new is, that the Montevidean loan is again talked of on the London market. We had the news about the Circassian and Affghanistan affairs before. Alas and alack! Time was when the British Lion would as soon have thought of cutting his robust throat as confining himself to a whining protest to his compeers against encroachment on his dominions by the Russian Bear or any other animal. The Tories seem to have thought better of the 'spirited foreign policy' they promised the country at the last elections. Another item in Mr. O'G's telegram that has an 'ancient and a fish-like smell' is Lord Russell's asking Lord Derby about the peace of Europe and getting a reply that the chances of maintaining it were rather glum. As well as we remember, Parliament closed on the 7th August; but perhaps Lord Johnny and the bold Stanley have been exchanging diplomatic notes 'pour passer le temps,' while their younger peers are grouse-shooting. 'So much for Buckingham'—O'Gorman, we mean. In another column, however, will be found 3 days later paper news from Europe, to 20th ult., just received by the Memphis.

It is almost superfluous to mention that it rained cats and dogs on Friday night and yesterday morning. We are tired describing swollen 'terceros,' tram cars all afloat, dripping subscribers and seas of mud. Every one was late at business yesterday. Suburban subscribers on reaching their offices showed unmistakeable signs of having had a stiff skirmish in the outskirts with Field Marshal Mud, General Pantano and their legions. The average time taken to reach town yesterday by residents in the suburbs was: Belgrano men two hours, Lomas 45 minutes, Flores 25 ditto. No reports from other places. Flores has an immense advantage in wet weather. The general impression now is, that there will be no chance of the rain ceasing for the next ten years, and that umbrellas and waterproofs are the best permanent investments in the market.

The air is redolent of printing ink. Notwithstanding the several seats in the 'Bus' recently left, vacant the 'cacoethes scribendi' is still strong both here and at the Mount. A private letter from the latter quarter informs us that some one down there has recently dreamt of a *Montevidean Times*, but unlike Mr. Garcia, his 'sueno' has not yet proved true. "'Tis all but a dream at the best.' The name of the mooted organ is not one of happy augury, as we have a distinct recollection of a paper of that name some eight years ago, contemporary with the *Argentine Citizen*, of Rosario That *Montevidean Times* was edited by the late Mr. Havers, and no less remarkable for the purity of its style than the unfortunate selection of its articles, the preservation of beef being so constant a theme that the subscribers could not digest it. The health of its Rosario contemporary was also so undermined by exchanging, that it expired, 1,200 dead 'Argentine citizens' being found in a single Post Office, all killed by too much beef. If we are to have an English colleague in the sister city we think a paper by any other name would smell as sweet.

The Neva took home from Montevideo 18 South Down sheep which formed part of the live stock of the unfortunate steamer Liffey. This is a thorough case of the frying pan into the fire. They escape death from drowning to encounter death in another form, and will once more return to the frying pan, but not in a metaphorical sense. An Argentine on board the Neva, we are told, was in ecstacies about the mutton, and confessed that having lived all his life on Pampa sheep, he then learnt for the first time what mutton really was.

We beg to remind our Athletic readers that the next meeting at Palermo takes place on the eleventh November and it is now time that intending competitors should knock off 'cock tails' and take to raw beef-steaks and porridge, or they will find themselves out of condition on the day. We hear of many old performers who have expressed their intention of competing, but we hope to see many new aspirants to fame. An idea exists that the Athletic Society is solely open to Britishers, whereas the prizes are offered to all nationalities, and the Committee, we are sure, would gladly see entries from Argentines, Germans and others. The conditions of membership are most liberal and the annual payment is only $100 currency, therefore, gentlemen wishing to join should at once send in their names to the committee.

It is more difficult to frame an excuse than an oil painting, though they are both works of the imagination.

The last number of the *Anales de Agricultura* contains a very interesting article on the habits of the ostrich, and its value as a producer of feathers for export. Its stomach is of surprizing strength. Among other proofs an instance is related of a person who kept an ostrich in London, and on one occasion gave it a four inch nail which it swallowed with avidity, but soon afterwards the bird was seen to discharge it with such force that the nail penetrated the ground two inches, remaining upright! The Baron Munchausen is not dead.

We have another letter from "A German Subscriber" to "A Dane." The scrimmage between Macbeth and Macduff was nothing to this newspaper duel; but we take leave to inform the combatants that the Public is crying "Hold enough!" of this Schleswig Question, though the historical lore displayed by both sides is most creditable.

From the 23rd to 26th inst. the town of Mercedes will be 'on fete.' Music, balls, fireworks and a general illumination will form the staple of the blow-out.

We perceive by the Rosario papers that the Central Argentine Railway has taken the hint of our correspondent and established cheap Sunday excursion trains to Roldan, San Geronimo, Carcarañia and Cañada de Gomez. The big prize of the last Uruguay Lottery was won by a Rosario man. The horse thieves are very active just now in Santa Fe. The beefsteak crisis is still awfully bad in Rosario; butchers 'laying it on' like an honest whitewasher, if there is such a being.

We intend publishing to-morrow Mr. Lindmark's report of the success of his mission to England, to arrange the difficulties that had sprung up about supplying the locomotives for the Tucuman Railway.

We regret to inform the public that Messrs. Dennehy and Miroli, the great land men, have been forced to postpone their grand, free and easy 'paseo' to Belgrano to-day, the terrific rain of Friday night rendering the ground a little moist, and they do not wish their friends to run the risk of damp feet.

"Pat," said a joker, "why don't you get your ears cropped? They are much too long for a man." "And yours," replied Pat, "ought to be lengthened; they are too short for an ass."

Mr. Consul Bridgett publishes in this issue a long list of 'persons wanted,' and promises them all 'something to their advantage' if they will kindly turn up. Most of the individuals Mr. B. wants are dead, and gone to glory or elsewhere long ago, but that's their own affair, and under the circumstances he kindly undertakes to deal with their heirs.

The parish clergyman of a town in Catamarca recently made an 'auto da fé' of a lot of novels sent up to the Biblioteca Popular. The books were consigned to the flames in the Plaza, the pastor deeming them pernicious reading for his flock.

A funeral service for the late Mr. Pablo Escalante was celebrated in the Cathedral yesterday, and was largely attended.

From Cordoba the death of Dr. Dn. Ramon Ferreyra is announced. Deceased was a distinguished though retiring man, and at one time ably filled the post of National Fiscal. The health of the learned city is not good just now, the changeable weather laying everyone up with coughs, colds, sore throats, rheumatics, etc. The streets of the town are fearfully dirty, which is also a danger for the public health.

Letters from Asuncion state that business is slowly improving up there, and things in general more active. A private company of six gentlemen has been formed for starting a large sugar plantation near Tebicuari, and it is thought it will succeed.

"Lot's wife wouldn't have turned back, but a woman with a new dress passed her, and she wanted to see if the back breadth was ruffled."

"A Virginian gentleman, aged 99, made his own coffin the other day. He also pluckily announces his intention of being present at his own funeral."

The last two sittings of Congress have been mainly taken up with a discussion on the Budget for Worship and Public Instruction. Nearly all the proposals for increases in the grants for the former were thrown out, but the latter fared better. Dr. Aneiros has introduced a Bill to prohibit all work on Sundays and holidays, only allowing apothecaries' shops to remain open. We think the privilege might be extended to cake shops, and places of refreshment; but such a Bill is loudly called for, as Sabbath desecration is now going to lengths that will be productive of serious evils to the country, if wise legislation do not cut it up by the roots.

Look out for the great Plant auction to-morrow by Mr. Serna, at the Pasage in the Variety Theatre. The cheapest chance of the season. This is no plant, but positive fact. Everything from a camelia to a cabbage rose to be had for the asking and a few dollars.

THE MORTGAGE BANK.

Dear STANDARD,

Your reference towards the Mortgage Bank was too reasonable to be true. On seeing your rectification of to-day's date on the "Black board." I have been suggested to make the above observation.

Can any one tell me whether the measure of giving only 25 o|o., on properties has caused Cedulas to be worth an ¼th more than they would be without such a measure?

Any measure taken by the Bank in respect to the market price of Cedulas is, and will be quite inefficacious, if not prejudicial to stock and to the investors. The question is simply this:—

With Cedulas at low prices, the applications will be reduced.

With Cedulas at better prices the applications will be larger.

The Bank must not be a tutor of the Mortgagors, who can take good care of their own interests, without the bank to instruct them.

Let the Bank keep to the law. Let the board despatch quickly and not employ six months without accepting or refusing a business, as I can prove, and never mind for the sake of the Mortgagors the price to be 75 o|o., or 90 o|o. I am disposed to maintain my opinion.

Yours obediently,

A Broker.

VISION OF ATAHUALPA.

[Aug. 28th, 1533, Atahualpa (pronounced Atawalpa), descendant of a long line of Incas and last monarch of Peru, overcome and made prisoner by Pizarro, is, after some months of captivity, sentenced to be burned alive on the morrow.]

I.

Out from Cuzco's sacred city,
In the silence of the night,
Came forth bands of phantom warriors,
Like the misty moonbeam's light,
Rank on rank, till all the valley
With those spectral warriors shone;
For their lines of armour glitter'd,
Though their faces were of stone.

II.

And they pass'd before the sleeper
Who in Spanish dungeon lay
Wond'ring at the ghostly vision
And the martial proud array.
Then the Incas, for long ages,
Down from Tupac's royal line
One by one pass'd slowly by him,
But they gave not word or sign.

III.

Then the snow-capp'd Chimborazo
Rose before the sleeper's view,
And the spectral hosts ascended
Like a cloud of morning dew.
Then a dozen white-rob'd prophets
Clos'd the pageant strange and dim,
Singing low, in accents mournful,
Atahualpa's funeral hymn.

IV.

Lost of kings, thy reign is ended,
And thy line of kingly sires
All extinct, in darkness shrouded,
Like Sorata's ancient fires:
But above, to fields Elysian,
In the regions of the Sun,
Where the Incas reign in splendour,
Come!—thy earthly work is done.

ON 'CHANGE.

Sept. 19, 1874.

Ounces	400
Sovs	122½
Pate	25
Nat. Bonds	77
Cedulas	82⅝

The Cedula market ruled rather weaker today. The sales were sufficiently large to show speculation; one party sold in one lot 150,000 Cedulas; prices on time ruled down.

It appears that the bank board is awaiting the nomination of the new Provincial Finance Minister to present a 'solicitud,' praying for the nomination of a financial agent for the Mortgage Bank in London; and also asking to amend the law limiting the total issue of Cedulas to 26 millions, of which 20 millions for Series A.

There was nothing certain known on 'Change about the new Minister of Hacienda, but we heard Mr. Cambaceres's name mentioned in connection with the report.

The sales to-day were—

Cedulas.		
For cash	3,000	82¼
do	30,000	82½
For end month	275,000	82⅝
Oct. 31	20 000	82
Nov. 30	90,000	82
Oct. 31	250,000	82
Total sales for day	668,000	

National Bonds were dealt in to-day. Three lots sold, amounting to 23,8[illegible]o, at 77.

In the liquidation the following sales—

End month	40,000	82⅝
Cash Monday	33,600	82½
End Oct.	40,000	82

Respecting the accident on the Southern Railway, we are glad to say that the bridge did not break down. Some waggons got off the line on the bridge, and hence 'illae lachrimae'.

Next door to the National Bank a melancholy accident occurred this morning, and two English brokers very narrowly escaped being both shot through the heart. The victim was a young gunsmith, who was cleaning a revolver; the contents lodged in his stomach.

Exchange rules very firm, and many expect the rate to close for Minho at 49½. Bills were offered freely at 49, but as two steamers just left, and none sailing, there is not much doing.

The sale of a Cardiff coal cargo to arrive, at 16½, is reported.

The French packet arrived to-day; letters to be up in the morning.

The Dumbartonshire is at last afloat, and the captain and consignees wish to express thanks to Captain Benetti for his great services. We congratulate Messrs. Boyd & Co. on having so wonderfully saved this beautiful ship. She is buoyed up now, and all right.

Mr. Ebbeke reports having sold by private sale the house, No. 239, Calle Uruguay, advertised to-day for auction; price, 120,000 m|c.; Mr. Villegas, buyer.

Mr. Marshall, of Montevideo, was welcomed on 'Change to-day.

The barraqueros' room was very fully attended this afternoon. The payments are not estimated, but from the general appearance of the room we should say that the week's produce business has been brisk enough in dry hides and sheepskins. The wool sale in the STANDARD this morning should have been five thousand arrobes, and not 50 thousand as appeared through a typographical error.

Nat. Bank shares.

100 for cash at 85.

All the brokers report this an easy Saturday enough for money; no pinch in any quarter, and first-class bills scarce. Money offered on stocks, but not much taken.

There was quite an uproar amongst the brokers this morning, caused by the statement in the STANDARD that the Mortgage Bank had determined to resume its former rule of advancing 50 per cent on property. We received our information yesterday afternoon after the Mortgage Bank closed and from one of the most respectable brokers on the Bolsa. To-day as several brokers waited on us about the matter, we enquired of the bank the real state of the case, and upon Mr. Balbin assuring us that the bank directors had made no change whatever in the 25 per cent rule, we at once put up a notice on the Bolsa correcting the statement. Disagreeable as are such matters, they are unavoidable, in as much as in Bolsa matters, the brokers are the chief source from whence to derive news.

The first news this morning was our Biela telegram which will be found in another column, the letters per Biela are looked for in the morning.

The news from Rio Grande per telegram may interest the market, the collision of the steamer Arinos is confirmed, the cargo of the German schooner Paulos is to be sold by auction for account of underwriters, 8815 dry hides and 458 salted, she was bound to New York: there are 18 vessels loading beef for Brazil. The French barque Juan with 7569 sacks flour from Chile has arrived, the British barque Somerville with a Chilian cargo of flour from Constitution has been ordered up to Rio by the Rio Grande consignee Kohler and Co.

Owing to the severe weather and stiff gale it was by no means certain if the Savoie would get away to-day or not. It is said that Dr. Tejedor goes in her to Rio, to sign the arbitration treaty.

The import of the financial projects before the Provincial Legislature is the subject of much comment. We have looked into the matter, and, as far as we can discover, the projects are as follows—

1st. To authorize the Provincial Bank to discount Cedulas at their par value.

2nd. To authorize the Provincial Bank to emit 500 millions currency, guaranteed by mortgage notes.

3rd. To authorize bank to make a loan for 9 millions pats.

4th. To authorize Mortgage Bank to advance four-fifths of value on city property three-fifths on country property.

That any of the foregoing schemes will be passed we much doubt; all these projects crop up because the business of the Mortgage Bank is at a stand-still, owing to the 25 per cent rule. The most likely upshot of the whole business is the creation of the new Nat. Mortgage Bank, which, on good authority we learn will be passed this Session.

Whoever reads the Boletin Oficial through daily will be impressed with the very heavy outlay the country has to bear in maintaining the War-Office, the figures are really enormous for so young, thinly populated, and unmartial a country; why if we had a standing army like the European powers the drain at the War-Office could not be much heavier. Query could not the country get along without any War-Office at all?

We note that pretty much all our steamers from Rosario now bring down specie remittances, this after all is a poor sign; far better to have produce to send us down, but at this time of year produce is always scarce.

Mr. E. Bateman who for the last 5 years has been in the office of the Buenos Ayres Tramway Co, leaves next week for Lima to occupy a high post in the management of the Lima Railway Co., Mr. Bateman was appointed by the board in London and we wish him a pleasant voyage.

Mr. G. O. Campos will hold a very important estancia auction at the well-known Pacheco estancia on 4th prox. We note that Mrs. Thwaite's estancia in Ranchos will also be sold next month; time was when that was the first estancia in the land. Another great estancia auction at Canuelas La Figura is also announced; indeed it is long since we have seen so much stock and property in the market, but it all sells. The far famed Saenz Valiente quinta at Barracas is also noticed for auction sale, and on Sunday 27th inst. 4 vessels belonging to the estate of Delfino will be sold at the Boca.

The *Telegrafo Maritimo* of Montevideo says that the Baron de la Victoria will not return to the Plate.

The news to-day from Paysandu is, that the great business going on up there is at the new bull ring. All the saladeros are closed, and everything is shockingly dull save bull fighting.

The last returns from Montevideo on the way of bank balances gives to August 31st, 1874, as follows—

We can find no returns in the papers of the Mercantile Bank.

A new Municipal loan for 2½ millions is talked of, but we dont well see how it can be done. From the Mount to-day we learn that the much talked of arranged advance of 600,000 pats. to the Government and settled by the late Minister has amounted to nothing. The bids for the new Montevidean loan were to be opened to-day in Montevideo, we doubt if they will amount to anything.

Mr. Domingo Parodi has left Montevideo for Buenos Ayres to take charge of the very large business of Messrs. Demarchi Bros.; the millionaire druggists, Mr. Ruggli will now manage the house in the Mount.

The statutes of the new joint stock Cordova line Co. of which Dr. Bernardo Irigoyen is president are now laid before the Government for approval.

The project for a great sea wall to run from the Gas house to the Boca comes up before the legislature next week; it is a scheme of very great importance, but what has become of Messrs. Lacrosse Bros. new road and camp tramway law? this is the most important of all, yet we hear nothing more about it.

The Memphis, Hamburg steamer has this time come in ahead of the other steamers in the way of news. She brought Havre papers to Aug. 24th being 3 days later than those of Savoie, the news will be found in another column.

The Provincial Government is about to split up the partidos of Ranchos and Ensenada and create a third partido, name not yet given.

Mr B. Lastra has been named president of Public Credit Office. Mr. E Frias has been named Vice-president. Mr. Delfino Huergo has resigned his post as Gefe of the office of Provincial rents.

Government has extended the Contribucion Directa time for the camp to 15th Oct. Flores people take notice, for Flores is the camp so far.

The Legislature is about to pass a most important law in the shape of ordering all the public lands at Quequen and Sauce Chico to be sold the measure is a capital one.

Messrs. Henry A Green and Co have favored us with the following news respecting Messrs. Lamport and Holt's steamer fleet—

"Biela, with mails of 20th ult, arrived at M. Video last night. They will be sent up by river steamer to-day. She will load for Liverpool (direct) on 27th, taking a full cargo.

"S.s. Vandyck leaves Rosario to-day for San Nicolas and San Pedro. She will leave this a full ship for Antwerp and Liverpool, not later than 27th.

"Galileo, mail boat of 9th prox, will load for Liverpool only. Rates of freight; bales 40s, dry hides 100s.

"S.s. Maraldi will be the next steamer from London, Antwerp and Havre.

"The s.s. Teniers will leave Liverpool on the 10th September, direct for Buenos Ayres and Rosario."

The money market has been by no means inactive during the past week. At the banks the demand for discounts has been of the usual character; the people banks want to lend to require nothing, and in Calle San Martin there is felt a scarcity of first class bills, but other descriptions are superabundant; bankers are, however, very cautious in their advances. The enquiry for money at the Bolsa has been moderate, and loans on Cedulas were offered yesterday at 8 per cent per annum. The National Bank statement published during the week shews an increase in discounts of 800,000 pats, a decrease of bullion of 100,000$f., an increase of deposits of 65,000$f., and a decrease of 136,000 pats. in emission. The business of this bank is considered by many unnecessarily restricted; a bank enjoying such fiscal privileges, and with a large Government deposit on fixed time of upwards of one million sterling, ought perhaps to show more in the way of discounts and a lower rate of interest. We find, on comparing figures with Maua Bank of Montevideo, which is a private bank, that the latter does a far larger business than the National Bank—

Discounts, Maua	$f. 10,996,946
" National Bank	$f. 8,627,611

There is general complaint at the Nat. Bank maintaining its interest rate at 12 per cent, when first-class paper can hardly be got at 9. The week, however, has witnessed a reduction in the value of money, and by a bank which has hitherto been regarded as the dearest in the market. Discount brokers, however, now agree that the two cheap stock banks for first-class paper are the Provincial and River Plate banks. There has not been such a large business in stocks as in the previous week. Cedulas began buoyant at 83¼, and sold up to 83⅜ to Thursday, when the market experienced a sharp turn, from which it is now only recovering. The rumoured decision of the Board of Directors to go back to their old rate of advancing 50 per cent has proved incorrect. The week opened with the news of the Board contemplating the restriction of the emission, but the market itself restricts the emission. For the last month the heavy capitalists have had poor property holders, and 2nd. and 3rd class, people entirely to themselves. We have heard of bond and mortgage operations at 18, and even 24 per cent, that would make Shylock blush; and perhaps the most instructive feature is that the lenders and discounters are men for the most part of limited credit. Miscellaneous shares show nothing for the week. Old Gas shares are offered; about 1,000 on sale. Nat. Bonds are at 77, drooping, and as for Nat. Bank shares, they come down so fast from above that they can hardly hold up their head.

The week has been a nowsy, rainy, rumour some week; the story of a dull sea Cap'n about a steamer at St. Mary has plunged ship brokers into a vast sea of anxious doubt and telegrams; happy are we to say that the wrecked steamer must have been a 'Portuguese man-of-war,' still the week has proved disastrous to the mariner underwriter and consignee, and for those who wish to go over our commercial columns since Sunday sufficient there is to instruct them of the danger of coal cargoes o'c. One failure marks the week; a 'tendero' in a large way closed for 2 millions, it is estimated that there are 3,000 'tenderos' in this city; 500 would be enough for the trade and population of the place. In politics here has been an unusual stir. Congress has been pruning all the Nat. expenses save the salaries to legislators and Ministers. Mr. Del Valle has stepped from the printing office to the chair of Minister of Government; happy man, how few there are who can make such a change, far nearer to the editor's chair is the debtor's prison, but Del Valle is not only a man of talent but of luck, and good STANDARD luck. Dennehy who organizes success in house and land speculation has had a triumphant week and winds up his accounts with sales to the amount of 700,000 m|c for the 6 days. Nazar follows in the 'senda' and has just closed the most successful ram auction ever held in this town, rams raised at Quilmes and selling for 16000 m|c!! The meat market is still dear and fat beef sells higher than in the Castle market, city of Dublin; mutton is the food of the people, a good capon killed and dressed can be bought at the corrales for 28 m|c.

As for camp affairs, pretty much all those we have seen during the week complain of too much rain and grass; down in the South there are large fields and locks that defy diligences, bullock carts and even horsemen, there is nothing for it but stay at home, although all the estancieros want sadly to go about to look for their long lost cows. The new Governor has expressed his resolve to turn over a new leaf in camp matters; respecting the state of crime in the camp he says that the people are much to blame; they should have more spirit and pluck, and turn out and help the authorities, the Juez de Paz who now fails to do his duty may look for free quarters at the Cabildo for a while; Governor Barros knows every inch of the camp, and also the people in it. The St. Patrick's Society petition is now before him in the Government House, he has looked over the names and asks where are all the rest of the Irish estancieros and sheep farmers whose names should be to the paper; possibly they refused to sign, as they consider the camp well enough off as it is, and needs no reform; the new Governor is the right man in the right place and prepared to prove it. In Montevideo there has been a great External squeeze, stocks down 4 per cent., and a species of ministerial crisis. The cable is still broken, and it takes 3 days to get a message through to London, but Mr. Caravalho, the great news man of the period, says that in the ensuing week all will be right at Pernambuco.

Another Loan Song.

(Dedicated to the new President of Paraguay.)

By a Paraguayan Bondholder,

CASSIO.—Why, this is a more exquisite song than the other.

Oh! Mr. Gill, will you wake from your slumbers,
Our bonds are unpaid, and our pockets are light,
Can you look on the coupons, and think of the numbers
Of people you've sold and bamboozled outright:
Bonds were at 80, and all things looked smiling
Now at 16; oh! my friends, what a fall,
The Lincolnshire farmers, that seemed so beguiling,
Are gone, like the public lands, forests and all

2d VERSE.

The poor-house or prison is all that is left us,
For those who bought Paraguay bonds once a time,
And the *stocks* are the only things now not bereft us,
While we pour out our sorrows in pitiful rhyme:
Oh! Mr. Gill, think of hearts that are beating,
People in debt that still hope to get free,
For we're in the *stocks*, and the jailer is treating
One or two, like myself, to Otard and Dupuy

SAVINGS BANK

BANK MAUA AND CO

101--Calle Cangallo--103

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Mercenants who fail to keept one at the bank in which they place the most confidence.

The Bank of Maua & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sum deposited in that very important institution is daily increasing, and already reaches very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need sickness, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, offer the same facilities in this city, and have opened a Savings Bank at No 103 Calle Cangallo from Nineteen till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1837.

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM,
E. DE LAS CARRERAS.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

Bristol's sarsaparilla

Is prepared in the most scientific manner, by thoroughly educated chemists and Druggists, who have had many years' experience. It is not a simple extract from one article, but is compounded of extracts from a number of Roots, Herbs Barks, and Leaves, all of which are possessed of some particular virtue or power in curing the diseases that have their source in the blood and humors; these different vegetable extracts are combined in such a way as to retain, in so full strength, the special curative virtue possessed by each. The root of the Sarsaparilla plants found in Honduras, is that which we use in this preparation; it is the kind which all medical men esteem most. About fifty per cent. of Bristol's Sarsaparilla consists of the concentrated extract, the remainder, as above stated being composed of extracts from other powerful, cleansing and healing vebetable substances. It does not contain any thing that is dagerous or injurious to health, and in this, as in nearly every other respect, is entirely different from all other preparations sold under the name of Sarsaparilla.

By having our own agents at the places where the various roots, drugs, herbs and plants, composing our medicines, are produced, we are enabled to exercise that constant care in selection which insures uniformity of excellence, and we spare no money and no effort to procure the best—and only the best—of every article entering into their composition; and it is with the most abiding confidence we say, to be sick of all nations and all countries, that, in Bristol's Sarsaparilla you have a remedy more reliable than any before offered to you, and which will no disappoint you in the cure of,

Salt Rheum, Tetter, Scald Head,
Syphilis, or Veneral Disease,
Nervous and General Debility,
Old Sores, Ulcers, Tumors,
Abscesses, Boils, Eruptions
Scrofula or King's Evil,
Female Derangements,
White Swellings,
Fever and Ague,
Chills and Fever,
& Dumb Ague.

As a means of building up the constitution that has been broken down by the excessive use of Mercury, Iron, or other Minerals, our Sarsaparilla will be found most excellent, and can be administered with safety to the weakest patients. As a purifier of the blood and humors, in the Spring and early Summer, it will be found unfailing. It can be taken freely at seasons, rainy or dry. For some of the above diseases, the use of the Sarsaparilla must be continued a considerable time, especially for those that are hereditary or constitutional in their nature—such as Scrofula; but a faithful compliance with the directions will always relieve and mitigate, and in a great majority of cases will effect a complete cure. It will also be found, in all of the above diseases, that a cure will be greatly hasted by using our Bristol's Sugar-coated Pills, in moderate doses, in connection with the Sarsaparilla; they carry off large quantities of morbific or diseased matter set free in the system by the Sarsaparilla, and in this way facilitate the return to mal functional operations.
